God of War Ragnarok has six different graphics modes on PS5 alone. The 4K/30fps mode is the most detailed, but if you want it to be smooth, then there's a 60fps option that can drop its resolution down as far as 1440p.

God of War Ragnarok PS5 graphics modes: 4K/30fps, 4K/60fps, 1440p/30fps, 1440p/60fps, 1080p/30fps, 1080p/60fps.

God of War PC runs in native (not upscaled or checkerboarded) 4K 60Hz with ease, and we've noticed framerates very close to 120Hz, as well.
