

cbet trustpilot

[The best resolution for banner printing is 150 dpi at full print size.](https://www.northcoastbanners.com/what-art-resolution-do-i-need-for-banner-printing/) At this resolution, the graphics and text on your banners will look sharp and clear. Raising your dpi on raster images to 300 or 600 dpi won't improve clarity.

[Standard Banner Sizes](https://www.northcoastbanners.com/standard-banner-sizes/)

Size (Px)	Name	Weight
970x250	Billboard	150kb
336x280	Large Rectangle	150kb
468x60	Banner	150kb
